

## Energy-efficient heating equipment rebate application

Puget Sound Energy offers a variety of rebates for high-efficiency heating systems for our natural gas and electricity customers to help them save money and the environment.

### Available rebates and qualifications are listed on the back of this form

For more information, contractor referrals or for help completing this form, call a PSE Energy Advisor at 1-800-562-1482, Monday through Friday, 8 a.m. to 5 p.m.

#### Directions:

Carefully fill out this application and submit to PSE, securely attaching legible copies of receipts or invoices that clearly show the equipment brand name, full model number(s), purchase price and where purchased. *Keep copies for your records.*

**Mail to:** Puget Sound Energy, Energy Efficiency Rebate Program, P.O. Box 97034, EST-10W, Bellevue, WA 98009-9734

INSTALLING CONTRACTOR

PSE will review your rebate application and determine if your new equipment qualifies for a rebate. Applications with missing or incomplete information will not be processed. Please allow six to eight weeks for processing.

By signing below you acknowledge that: your qualifying natural gas equipment is installed at a residence in PSE's natural gas service area and/or your qualifying electric equipment is installed at a residence in PSE's electric service area; PSE may inspect these products upon request; PSE has made no implied or express warranties or representations with regard to these products or energy savings from their installation; this is a tariffed service and is subject to change or termination without prior notice.

*I have read, understood and agreed to the terms and conditions of this service and certify that the equipment described above has been purchased and installed at the location indicated. I authorize PSE to release my customer account information, including my billing and energy usage information, to an independent, third-party evaluator solely for the purposes of evaluating this rebate program, confirming energy savings and other quality assurance purposes.*

## Electric heating systems

### Ductless heat pump

- **\$800 rebate**
- Equipment must be certified by the Air-Conditioning, Heating and Refrigeration Institute (AHRI), use inverter technology and be a minimum of 1.0 ton
- Must use electric resistance heat as primary heating source which includes electric zonal (baseboard, cable, wall heater), electric hydronic or electric forced-air furnace
- Must install at least one unit in the main living area of the home. Equipment only installed in a bedroom is not eligible
- Cannot have an existing heat pump or natural gas service, even if only used for cooking

### Geothermal heat pump

- **\$1,500 rebate**
- Must install ENERGY STAR® qualified equipment
- Cannot have an existing geothermal heat pump installed
- Auxiliary heating sources do not qualify for additional rebates

### Electric forced-air furnace (FAF) to air-source heat pump conversion

- **\$1,000 rebate**
- Pre-approval required. Must submit additional form to PSE and receive pre-approval prior to installation
- Must have an existing electric FAF and upgrade to an AHRI performance certified heat pump with a 8.5 HSPF and 14 SEER or higher
- Cannot have an existing heat pump, including a ductless heat pump, or a gas furnace or gas boiler
- Electric zonal customers are not eligible
- Auxiliary heating sources do not qualify for an additional rebate

### Air-source heat pump

- **Tier 1 - \$200 rebate**
  - 8.5 HSPF or higher
  - 14 SEER or higher
- **Tier 2 - \$350 rebate**
  - 9.0 HSPF or higher
  - 14 SEER or higher
- Heat pump system must be AHRI performance certified
- Customers who do not qualify for the ductless heat pump or electric FAF to heat pump conversion rebates can qualify for this rebate if equipment meets efficiency requirements
- Auxiliary heating sources do not qualify for additional rebates

## Converting to natural gas

When available, PSE recommends using natural gas directly for space and water heating. You may be eligible for conversion rebates. Visit [PSE.com/Rebates](http://PSE.com/Rebates) for more information.

## Natural gas heating systems

### Boiler

- **\$350 rebate**
- Must install ENERGY STAR qualified equipment with a 95 percent Annual Fuel Utilization Efficiency (AFUE) rating or better

### Forced-air furnace

- **\$100 rebate**
- Must install ENERGY STAR qualified equipment with a 90 percent AFUE rating or better
- Cannot have an existing furnace with 90 percent AFUE rating or better
- Cannot be installed with a new or existing heat pump

## General qualifications

- Rebate application must be submitted within 30 days of equipment installation
- Qualifying natural gas equipment must be installed in PSE's natural gas service area and qualifying electric equipment must be installed in PSE's electric service area
- Equipment must be installed in 2010
- Applies to existing single-family properties (including manufactured) or individually-metered attached housing with four units or less
- Super Good Cents/ENERGY STAR qualified manufactured homes are not eligible for heat pump rebates
- One rebate per qualifying customer. For air-source heat pump and natural gas boiler and furnace rebates, one rebate per qualifying piece of equipment (not to exceed two)
- Cannot be combined with any other space heating rebate except ducted, air-source heat pump rebates can be combined with PSE's air-source heat pump sizing and lock-out control rebate
- Customers who received an ENERGY STAR natural gas furnace rebate within the last two years do not qualify for any heat pump rebate
- Equipment that is replaced under warranty will not be eligible for a second rebate
- Must install to comply with all federal, state and local code requirements
- PSE may inspect installation for compliance with qualifications

## Keep saving:

Save even more energy with these PSE energy-efficiency incentive programs and services:

- Insulation and duct sealing rebates
- Heat pump air handler or furnace motor upgrade rebates
- HomePrint™ home energy-use evaluation
- Heat pump sizing and lock-out control rebate
- High-efficiency natural gas fireplace rebate
- Contractor referrals: find a pre-screened, independent contractor for nearly any product replacement or home-improvement project
