SQ. FOOTAGE OF HOME NUMBER OF OCCUPANTS YEAR BUILT

Your home is: ☐ Owner occupied ☐ A rental home

When was heat pump receiving lock out control first installed?

Home had an existing heat pump prior to this purchase:
☐ Yes ☐ No

Home had an existing gas boiler or gas furnace prior to this purchase:
☐ Yes ☐ No

Home has a natural gas meter (even if only used for cooking):
☐ Yes ☐ No

Type of home: ☐ Site-built ☐ Manufactured

Foundation type: ☐ Basement ☐ Crawl space ☐ Slab-on-grade ☐ Other

Qualifications:

- Rebate application must be submitted within 30 days of installation
- Only available to PSE residential electric customers
- Applies to existing single-family properties, attached housing with four units or less and manufactured homes
- Equipment must be installed on/after August 1, 2011 by a qualified contractor
- Customers planning a new installation, or submitting for an existing installation, must provide PSE sizing documentation completed by a qualified contractor indicating the system is properly sized for the home and meets PSE program requirements to 30 degrees balance point. Download the sizing document at **PSE.com/Rebates**
- New air-source heat pumps must have Heating Season Performance Factor (HSPF) of 8.5 and Seasonal Energy Efficiency Rating (SEER) of 14
- Existing air-source heat pumps do not have to meet minimum HSPF/SEER, however, existing air-source heat pumps more than 12 years old are not eligible
- Lock-out control for auxiliary heat (electric or natural gas forced-air furnaces) must be set to 40 degrees F and must have a sensor installed capable of reading outdoor temperature. Propane furnaces are not eligible
- Resident must have occupied the same home for the previous 12-month period and must expect to occupy the home for two years after installation
- Resident must agree to share one year prior billing history and up to two years of future billing history after installation
- Rebate may only be combined with PSE's air-source heat pump upgrade rebate or forced-air furnace to air-source heat pump conversion rebate
- Install to comply with all federal, state and local code requirements
- PSE may inspect installation for compliance with qualifications
- One rebate per metered residential customer

Heat pump manufacturer	Date installed
Heat pump outdoor unit model number	Heat pump indoor unit model number
Lock-out manufacturer	Lock-out model number
Furnace model number (if applicable)	
Installing contractor	
Lock-out furnish/installation cost	Heat pump furnish/installation cost (if applicable)

PSE will review your rebate application and determine if your equipment qualifies for a rebate. Applications with missing or incomplete information will not be processed. Please allow six to eight weeks for processing.

By signing below you acknowledge that your qualifying equipment is installed at a residence in PSE's electric service area. PSE may inspect the equipment upon request. PSE has made no implied or express warranties or representations with regard to these products or energy savings from their installation. This is a tariffed service and is subject to change or termination without prior notice.

I have read, understood and agreed to the terms and conditions of this service and certify that the equipment described above has been purchased and installed at the location indicated. I authorize PSE to release my customer account information, including my billing and energy usage information, to an independent, third-party evaluator solely for the purposes of evaluating this rebate program, confirming energy savings and other quality assurance purposes.
